EDUCATION

- **D. Y. Patil College of Engineering and Technology** Kolhapur
B.E Computer Science Engineering 75.47% 2022

SKILLS SUMMARY

- **Languages:** Java, Python, SQL, HTML CSS, JavaScript
- **Tools/Frameworks:** GIT, Postman, ReactJs, Flask

EXPERIENCE

- **IDfy** Mumbai
Software Engineer - Intern Jan 2023 - July 2023
 - Demonstrated expertise in Python by developing API endpoints for a captcha generator project, contributing to the overall system architecture and ensuring smooth data flow.
 - Led the frontend development efforts for the E-sign project, actively contributing to the design and implementation of user interfaces using modern web technologies.
 - Assumed responsibility for the website health check project, conducting thorough assessments and implementing monitoring tools to ensure optimal performance and availability.
 - Collaborated with the backend team to integrate APIs and ensure seamless functionality, specifically focusing on fraud detection and registry validation.
- **NEOSAO Services Pvt. Ltd.** Kolhapur
Web UI Developer - Intern Dec 2021 - Jan 2022
 - Managed front-end and back-end development in the company's Portfolio Analyst, Employee Track, and Account Management systems.
 - Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
 - Collaborated with cross-functional teams, including designers and backend developers, to deliver high-quality user experiences.
 - Implemented responsive web designs to ensure compatibility across multiple devices and browsers.

PROJECTS

- **Creative Narrative Synthesizer**
 - Developed a Creative Narrative Synthesizer using a generative AI approach. Implemented a recurrent neural network (RNN) with LSTM cells for text generation.
 - Trained the model on the preprocessed dataset, fine-tuning hyperparameters for optimal performance. Utilized techniques like teacher forcing and gradient clipping to enhance convergence.
- **SmartBusGuard: Enhanced RFID School Bus Tracking and Child Safety System**
 - Designed a system that improves child security by adding necessary features into bus tracking system.
 - Bridging the communication gap between central management and parents by delivering notification based solution to check the location of the bus.
- **DYPCET-Connect**
 - Android application aimed to be a one-stop-shop for all the college needs irrespective of college and course.:
 - The app contains several useful modules that enable students to stay up-to-date with all the college news, find out all about interesting places in and around college, and more.

CERTIFICATIONS

- Microsoft Technology Associate- Python Programming.
- IBM P-TECH- 1.Cyber Security fundamentals 2.Introduction to Cloud 3.Artificial Intelligence in practice
